Professional Summary

Computer Science undergraduate with strong foundations in backend development, RESTful API design, and database systems. Experienced in building scalable applications using JavaScript, Python, Firebase, and SQL-based systems. Passionate about server-side engineering, cloud deployment, and writing clean, production-ready code.

Technical Skills

Programming Languages: JavaScript, Python, C++
Backend: Node.js, Express.js, REST API Development
Frontend: React.js, React Native, HTML, CSS
Databases: MySQL, Firebase, Basic PostgreSQL
Cloud & DevOps: Firebase Hosting, Basic AWS, Docker (Fundamentals), Git
Core Concepts: Data Structures, OOP, DBMS, API Design, System Architecture
Tools: GitHub, Postman, VS Code

Education

Shri Ramswaroop Memorial University, Lucknow 2022 – 2026
Bachelor of Technology – Computer Science and Engineering
CGPA: 8.28

Projects

BolYaar – Production Mobile Application (Live on Google Play Store)

- Designed and deployed a full-stack mobile application using React Native and Firebase.
- Implemented authentication systems, secure API integrations, and real-time database management.
- Structured backend logic and optimized data flow for scalable performance.
- Integrated ad services and managed production deployment lifecycle.

Jinete – Student Ride-Sharing Platform

- Developed modular frontend architecture and integrated REST APIs.
- Implemented OTP-based authentication and Google login.
- Worked on map-based features and optimized API communication.

Women Safety Analytics System

- Built a location-based analytics system using structured datasets.
- Applied clustering logic and database operations for safety insights.
- Visualized analytical results for data-driven decision-making.

Experience

Android App Developer Intern – SlotinSolutions June 2025 – Present

- Developed backend-integrated authentication modules using Firebase.
- Integrated REST APIs and handled data validation and error management.
- Collaborated with cross-functional teams in an agile workflow.
- Used Git-based version control and participated in debugging and performance optimization.

Certifications

- GFG 160 Days of Problem Solving – GeeksforGeeks
- AI for Beginners – HP LIFE (2025)

Languages

English (Professional), Hindi (Native)
